*\*Programme of Events – Times of individual sessions remain subject to change*

#### Delegate information:

Bookings can be made via the [online shop](#) on the Alltech-Hartpury [website](#).

#### Student presentations

Students were invited to submit individual scientific papers that review emerging research within the field of Equestrian Science including the broad themes of equine behaviour and welfare; equine business management; breeding, genetics, and stud management; equine health and therapy; equine nutrition and feeding, rider performance, equine performance, and social license to operate. Accepted abstracts will be presented throughout the conference as either oral or poster presentations. Oral presentations will be 10 minutes in length followed by three to five minutes for questions. The conference is again pleased to host submissions from both undergraduate and postgraduate research.

For more information, please visit the Alltech-Hartpury Conference [website](#) or email [alltech@hartpury.ac.uk](mailto:alltech@hartpury.ac.uk)
