Discover the Future of Farming

Join us with the **River Severn Partnership Advanced Wireless Innovation Region** for a series of free demonstration events at **Hartpury University**. Witness cutting-edge agri-tech in action, connect with industry leaders, and explore how advanced wireless technologies can revolutionise your farming business.

WHAT'S ON OFFER?

- Come talk to the RSPAWIR project team at our stand at the show.
- Engage with experts at the Hartpury Agri-Tech Centre and Digital Farming Network.
- Get free, impartial advice and digital training tailored for the agricultural community.
- See live demonstrations of the latest wireless technologies and learn how they can enhance efficiency and productivity in your operations.

SAVE THE DATES!

- Networks - 18 October
- Soils and Environment - 15 November
- Health and Safety - 26 November
- Remote Communication - 12 February
- Precision Farming - 12 March

LOCATION: Hartpury University Agri-tech Centre and Home Farm Campus, Gloucester GL19 3BE
